**serie a**   
software and consulting

Founded in 1998, serie a GmbH is at the forefront of Open Source software and internet technologies, providing products and services like consulting, software engineering and system management. By working for years with affiliated groups and upper sized businesses, serie a listened to the wants, needs, and complaints of business people who hoped to develop or improve their businesses. Through that feedback and expert knowledge, serie a designed individual solutions and products that helped companies in many ways.

You can contact the main developer and owner of the extension at [meijerink@serie-a.de](mailto:meijerink@serie-a.de).
