## Introduction:

iNETGoogleMap is useful to add GOOGLE maps to your accounts and contacts WITHOUT overwriting your customized detail pages.

It is one of the most useful module for sales people who want to see customers' local time, their local weather, maps, and directions, find out the nearest hotels and restaurants, local info.

**To use this module user must have GoogleMap key on Google's website and implies you understand and accept the Google Maps API Terms of Use available Link Of Terms and conditions of GoogleMap:**  
<http://www.google.com/apis/maps/terms.html>

**iNET Process can not be held any responsibility for the use of GoogleMap, if you are not interested to follow the Google Terms and Services.**

## Installation Steps:

1. Install the plug-in iNETGoogleMap through module loader (through admin panel). Using iNETGoogleMap.zip
2. For Google Key Go Through the link  
<http://code.google.com/apis/base/signup.html>
3. Add Key 'google\_key' into config.php file & assign <Google Key> as its value.

**Ex:** 'google\_key' => ' here is the google key '

## Basic Functionalities:

### ⇒ Map:

1. Showing Google Map for Accounts and Contacts Module.
2. Showing Bubble Marker on Address point of Google Map area.
3. On Clicking on Bubble Marker Show ToolTip describing Account/Contacts Name and Address.
4. Ability to move (scroll) around address area.

### ⇒ Weather:

Show Weather Condition (Celsius / Fahrenheit) with proper image.

### ⇒ Current Local Time:

Show Local Time (24 hr Format) of Address region.

### ⇒ Locality Information:

Show Local Statistics like Restaurants and Hotels information.
